Professional Experience

Frontend Engineer, *Laferla Insurance Group*

March 2024 – present | Tallinn, Estonia

- Built a platform for generating digital insurance cards and adding them to Google and Apple wallets.
- Planned project architecture.
- Built complex onboarding flows for different insurance policies utilizing context API for state management while consuming REST APIs.
- Contributed to building the landing pages.

Frontend Engineer, *Freelancer*

January 2022 – present

- Translate designs into interactive web experiences.
- Craft responsive user interfaces.
- Write clean, maintainable, and reusable code
- Optimize for performance and SEO.
- Test and debug code
- Collaborate with clients and stakeholders.

Projects

BeautyCare AI

July 2024 – present

An AI-powered beauty consultation SAAS where women can chat with an LLM that is a beauty specialist.

Features include:

- A multi-modal chatbot capable of understanding both text and image inputs.
- A pay as you billing system for interacting with the AI beauty specialist.

Trankeep

November 2023 – March 2024

- Trankeep is a business management platform for tracking business transactions.
- Users (entrepreneurs) can register customers and products.
- They can also generate and print invoices and receipts.
- There is also a dashboard for monitoring sales revenue.
